Synopsis :

From the Back Cover The Maya guide for animators, How to Cheat in Maya 2012 presents everything you need to know about character animation in Maya. Fully updated for the latest revision of Maya, this book provides you with complete, step-by-step walkthroughs of essential animation techniques to increase your efficiency and speed. This is an animator's workflow in book form, written by professional animators-not a software book with a few animation pointers thrown in. In addition to all the gold-mine coverage and interviews with expert animators from the previous edition, How to Cheat in Maya 2012 also features a new in-depth chapter on the principles of animation, updated information on camera settings and animation using Maya's new Camera Sequencer tool, the ins and outs of the brand new Editable Motion Trails tool, new techniques for working with characters in multi-shot animation tests and short films, a new cycles chapter covering actions like flying and walks, time-saving scripts, and advanced tricks with the new Graph Editor. The proven 'How to Cheat' series gets you up to speed quickly, and in a way that's fun. How to Cheat in Maya 2012 gives you access to a powerful website (<http://www.howtocheatinmaya.com>) that includes: All exercise/example scene files Video tutorials to help you apply cutting-edge, professional techniques to your own animations Animation files with new cheats All materials from the previous edition of the book Read more About the Author Eric Luhta is a professional animator whose recent credits include 'Bioshock 2', 'Cloudy With A Chance of Meatballs', 'Horton Hears A Who!', and numerous television commercials.
